

**U.S. Department of Justice****Bureau of Alcohol, Tobacco,
Firearms and Explosives****Assistant Director**

Washington, DC 20226

DEC 5 2003

By Facsimile and Federal Express

Mr. Gary Rosenfield
President
AeroTech, Incorporated
2113 W. 850 N. Street
Cedar City, Utah 84720

Dear Mr. Rosenfield:

As you may be aware, Federal law provides that, when required by letter issued by the Attorney General, manufacturers of explosive materials must furnish samples of the explosive materials they manufacture. See 18 U.S.C. § 843(i). The authority to administer all provisions of the Federal explosives laws, including section 843(i), has been delegated to the Director of the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF). See Attorney General Order No. 2650-2003, 68 Fed. Reg. 4923 (January 31, 2003), codified at 28 C.F.R. Part 0, Subpart W. The Director has delegated to me the authority to require samples pursuant to section 843(i). Accordingly, by this letter, I am requiring that you furnish ATF with the following:

- Forty (40) AeroTech G-80 ammonium perchlorate composite propellant rocket motors—any delay

It is requested that you make the above-described items available for pick-up by ATF no later than December 9, 2003.

-2-

Mr. Gary Rosenfield

ATF will reimburse AeroTech for the fair market value of the samples provided. Accordingly, if you would be so kind as to provide us with a listing of the retail price for the items listed above, we will have your reimbursement available on the date the items are transferred to ATF. In this regard, and to make arrangements to transfer the listed items to ATF, please contact David Shatzer, ATF Explosives Research and Development Branch, at 202-494-8265.

We appreciate your cooperation in this matter.

Sincerely yours,

John P. Malone
Assistant Director
(Firearms, Explosives and Arson)
